Using a Health Equity Lens in Research and Quality Improvement Projects

Lori A. Bilello Ph.D., M.B.A., M.H.S..
Department of Surgery
University of Florida College of Medicine
*Research Associate Professor & Associate
Director, Urban Health Alliance*

Learning Objectives

Upon completion of this activity, participants should be able to:

1. Describe the definition of health equity and how it affects health outcomes.
2. List the social determinants of health that contribute to health inequities.
3. Identify health equity considerations that need to be included in implementing a research or QI project.

Disclosure

Dr. Bilello has disclosed that she has no relevant financial relationships. No one else in a position to control content has any financial relationships to disclose. Conflict of interest information for the CME Advisory Committee members can be found on the following website: <https://cme.ufl.edu/disclosure/>. All relevant financial relationships have been mitigated.

Accreditation

The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit

The University of Florida College of Medicine designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
